

Acomodeo awarded as "Best Service Provider 2019"!

We are proud to have won the award for the Best Service Provider and to have prevailed against prestigious competitors.

Frankfurt, 21st March 2019 — And the winner is... [Acomodeo](#)! On March 14th 2019, the market leader for serviced apartments was awarded 'Best Service Provider 2019'. The ceremony took place in London where Acomodeo prevailed against prestigious competitors. The award was granted to operators of serviced apartments as well as their providers and suppliers. The [Serviced Apartment Award](#), which has been presented by the jury of the International Hospitality Media for several years now, is to this day the only award that is directed at the international serviced apartment industry.

"Having already received an award from IHM as "Best Agent" in 2017, Acomodeo is proud to receive another award in 2019. It is only thanks to the promising and direct cooperation with our apartments providers that we were able to assert ourselves against the well-known big players on the market and win the 'Best Service Provider Award 2019'" mentions Alexander Wissing, Head of Customer Success at Acomodeo.

Serviced apartments as a smart alternative to hotels:

Especially for long-term stays, serviced apartments are the "golden mean" between the comfort of a furnished apartment and the services (cleaning, check-in, laundry service, etc.) offered by a hotel. They are characterized by a separate living area, more comfort and usually a kitchen or at least a kitchenette.

All serviced apartments distributed by Acomodeo are solely managed professionally and therefore ensure that they meet all the requirements of business travel guidelines.

About Acomodeo:

Acomodeo brings the smart booking experience of the hotel business to the growth market of serviced apartments and combines long-term accommodation with the global travel market. With tailor-made, technical solutions for business customers and apartment providers, the company covers the entire value chain of this niche market and makes the booking of a flexible home sustainable from one night upto two years.

With more than 400,000 exclusively professionally managed accommodations and specific services for corporate clients worldwide, Acomodeo clearly stands out from providers of private accommodation, which are usually out of the question due to a lack of billing options for a business trip, for example.

By offering exclusive long-term rates for serviced apartments, Acomodeo's inventory offers clear cost savings compared to classic hotels as well as more comfort and services for the traveler himself.

Acomodeo, based in Frankfurt am Main, currently employs 46 people. The company received the Travel Industry Club (TIC) Best Practice Award for its products in 2017 and is named "Best Agent 2017" by the International Hospitality Media jury for the global serviced apartment market. Additionally, in 2018, Acomodeo got selected as a part of the German Accelerator program by the German Ministry of Economics and now again received an award from the International Hospitality Media for „Best Service Provider“ in 2019.
